

Calf Registrations

Calf data recorded in **koolcollect** can be submitted to your breed society for registration purposes using the **koolperform** BREEDPLAN Export Wizard.

The screenshot shows a window titled "BREED PLAN EXPORT" with "full screen" and "close" buttons in the top right. The main content area has a heading "BREEDPLAN EXPORT" and a sub-heading "Welcome to the BREEDPLAN Export Wizard." Below this, it explains that the wizard will guide the user through selecting animals, validating, and sending data to BREEDPLAN. It instructs the user to click "next" to begin. A "next" button with a play icon is located in the bottom right corner. At the bottom of the window, there is a green bar with the text "Missing Data? Re-Run Setup Wizard" on the left and "Sapien Technology" on the right.

Go to **koolperform** > Data Move > BREEDPLAN Export

The screenshot shows a window titled "BREED PLAN EXPORT" with "full screen" and "close" buttons in the top right. The main content area has a heading "Choose your export type." and a list of options: "Registration" (selected with a radio button), "Weights and Scans and Traits" (with checkboxes for Weights, Scans, and Traits), "Joining", "Preg Testing", "Fates", "Trait Observation", and "Structural Score". A note on the right says "Select this option export type to export your Registrations." At the bottom left, it says "STEP 1 OF 6". A "next" button with a play icon is in the bottom right corner. The bottom green bar contains "Missing Data? Re-Run Setup Wizard" and "Sapien Technology".

Step 1 – Choose the export type you require > Registrations
